Jeremy Hamann – Senior Product Designer

jeremyhamann87@gmail.com | www.jeremyhamann.co | LinkedIn

Senior Product Designer with 6+ years designing world-class SaaS web and app experiences for Fortune 500 banks, brokerages, and advisories in the fintech space, backed by a strong portfolio showing both process and measurable impact. As Product Design Lead for advisor experiences at Communify, I use design system components consistently to ensure quality across everything I ship, and I'm energized by complexity, applying systems thinking to solve nuanced user and business needs at scale. I conduct and synthesize user research independently, work as an embedded member of a cross-functional agile team, and partner closely with product managers and engineers to inform strategy and deliver research-backed solutions. I am well-versed in designing for all desktop, mobile, and app-based platforms. I lead with empathy, informed by my background as a licensed mental health counselor, and confidently present design decisions and rationale to cross-functional teams and stakeholders, with proficiency in AI-enabled design workflows including Figma Make, Claude, and Cursor.

Work Experience

Communify - *Senior Product Designer* **Sep 2023 – Current**

Note: *Formerly a division of S&P Global; divested and reformed as a standalone company by VC in 2023.*

- Designed world-class applications for Fortune 500 financial institutions, leveraging shared design system components to ensure consistency and quality across every feature shipped.
- Conducted and synthesized user research, including interviews and usability testing, informing product strategy in partnership with cross-functional Product and Engineering teams.
- Applied systems thinking to solve nuanced user and business needs, navigating ambiguity in greenfield product areas with a strong sense of ownership and bias toward action.
- Confidently presented design decisions and rationale to cross-functional stakeholders, building alignment across teams with different priorities and levels of technical fluency.
- Used AI-enabled design workflows, including Figma Make, Claude, and Cursor, to accelerate wireframing, research, and design refinement throughout the product development process.

S&P Global - *Product Designer* **Aug 2020 – Sep 2023**

- Led end-to-end product design for Fortune 500 financial institutions, specializing in onboarding flows for banks and translating complex regulatory and compliance requirements into clear, high-converting user journeys.
- Conducted UX research, including user interviews and usability testing, to inform design decisions and validate onboarding flows before and after launch, aligning user needs with business and compliance goals.
- Designed and built retail research platforms for trading platforms, turning dense market and financial data into clear, actionable interfaces for retail investors making high-stakes decisions.

Rewally - *UX/UI Designer (final project for Flatiron School UX intensive)* **Jan 2020 – Jul 2020**

- Designed and shipped a credit card rewards application, translating business strategy into a market-ready product that demonstrated full-cycle product design expertise.
- Defined success metrics and core feature roadmap with stakeholders, aligning product strategy to market positioning and launch readiness.
- Led end-to-end product design, from concept to developer-ready handoff, ensuring feasibility and clarity.

Aspen Counseling Group - *Licensed Mental Health Counselor* **Jan 2017 – Jan 2020**

- Delivered evidence-based counseling to 50+ clients annually, building trust and measurable outcomes in high-stakes personal and family decisions.
